ROAD TO RECOVERY

T-Square Saliva Testing

12 Panel + Alcohol \$ 4.85

Appropriate for employment and insurance testing, the T-Square® oral fluid drug test offers recent use detection and ease of use.

QODOA-3126-A

12 Panel T-Square; AMP, BAR, BUP, BZO, COC, MET, OPI, OXY, PCP, THC, MTD, +ALCOHOL

Other combinations available

**Fast, Easy 2-minute Screening Test
For the Detection of Alcohol**

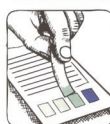

The first saliva alcohol screening test on the market, Alco-Screen is a simple, cost-effective solution to detect alcohol use. Developed in 1984, you can trust Alco-Screen's quality and rely on Chematics as your partner in your alcohol testing program.

PROCEDURE

1. Apply saliva directly to the test pad.

2. At two minutes, compare test pad with the color chart printed on back panel of the foil package. Within 30 seconds choose the closest color match to estimate the alcohol concentration.

24 tests per box \$1.50 per test

**K2/Spice
(synthetic marijuana) test**

\$2.75 per test

Urine Adulteration Tests

As drug testing becomes more prevalent, the frequency of specimen tampering increases. Urine Adulteration Test Strips answer this by providing immediate evidence of potential adulteration.

25 tests per tube \$25.00

10 Panel \$ 4.00
12 Panel \$ 4.50
13 Panel w/adult \$ 5.00
14 Panel w/adult \$ 5.50

T-cup Drug Test
